## FINISH HARVEST OF CHERRY CROP IN RECORD TIME

Adams county fruit growers and processors—finishing today the harvest of the final remnants of the cherry crop—estimated roughly at 1,200-ton for 1948 from weather-hit orchards.

That figure was about 800 tons lower than the 2,000-ton estimate of last year, and about 1,800 tons under the 4,000 tons that some growers estimate could be produced in a normal year.

Just recovering from the disastrous cherry leaf spot infestation of 1945, the cherry crop was hit this year by cold spells during the spring, with one freeze, on the morning after Easter credited with doing the most damage. Cold weather also cut down on pollination, growers said.

### Short Picking Season

Most of the crop was harvested by Tuesday or Wednesday, with most orchards having a nine- or ten-day picking period. In the Fairfield-Orrtanna section where the crop averaged only 20 per cent of last year, the picking season lasted only six days. One section which produced 400 tons of cherries last year secured approximately 80 tons from its trees this season.

South and east of Biglerville many of the cherries suffered from wind-chip which cut down the quality of the product and other sections also reported some damage from the winds that blasted through the orchards during the growing months.

The small crop, which resulted in one of the shortest picking seasons on record, should, with any luck at all, also prove to be one of the county's last very short crops. In one section where the cherry leaf spot took out about half of the producing trees, other trees planted a few years ago are beginning to bear next year and in a few years that section should be back in full production—production that totalled 700 tons in one year prior to 1945.

In another section growers estimated that about one half of the trees are from one to six years of age, which means production there may double in four or five years.

### 20 To 50 Pet. Crop

Only the northwestern section of the county seemed satisfied with the quality of the cherries, with many growers reporting excellent quality. The central fruit section and southern section all reported disappointment in quality.

Estimates on the crop ranged from 20 per cent of last year in the southern section of the fruit belt through 50 per cent of last year in the central section and 33 1/3 per cent in some orchards in the northern section of the county. Estimates between orchards varied from 10 per cent to 75 per cent of last year's crop and quality estimates varied from very poor to very good.

The same 1,500 who helped harvest the cherries also found variations in their profits in picking the fruit. One grower who paid 36 cents for an eight-quarter bucket reported that some of his harvest hands "made out very well" on the picking, and estimated that all found the work profitable. Another grower with some 150 pickers operating in his orchards said he feared the financial rewards were much smaller than usual.

**Little Eva" First**

It's been a refreshing course in nature study for many grownups whose only other recent contacts with the animal world have been a few prejudiced slaps at mosquitoes or breakfast interviews with the end products of absent hens.

The parade of the four-footed folk here began with the arrival of "Little Eva," who came with one trunk and a worried look to support the presidential candidacy of Senator Robert Taft.

She won many hearts and has the happy memory of shaking hands with the senator. But somebody slapped a court order on this small fugitive from a circus. And what happened to Taft left many admirers of the elephant Dewey-eyed.

The 11-nation council gave the Jews and Arabs three days to cease firing and committed itself to back up the decision with force. The delegates also ordered an unconditional cease-fire in Jerusalem, effective by tonight. The Holy City is to be demilitarized.

The final vote came on an American resolution after three days of debate. The ballot was 7 to 1 with only Syria in opposition. Russia, the Soviet Ukraine and Argentina abstained. The seven affirmative voters — just enough to approve the plan — included United States, Britain and France.

It marked a British break with the Arab world but during the closing hours of debate Sir Alexander Cadogan sought to soften the blow by explaining carefully that his government was not endorsing any suggestion that the Arabs are the aggressors. Rather, he said, Britain insists that a truce go on to enable Count Fofek Bernadotte to continue Arab-Jewish negotiations.

Israel is expected to comply with the order. Arab delegates have told the council they could see no chance of the Arab countries accepting.

### Dismiss Charges Against McClure

Charges of surety of the peace and disorderly conduct filed by Mrs. Lorna Whiteford, Gettysburg R. 3, against William McClure of the same address, were dismissed by Justice of the Peace John H. Baschore this morning. Costs in the surety of the peace case were placed against the defendant.

## OTT SUCCEEDED BY DUROCHER; SHOTTON BACK

New York, July 16 (AP)—Mel Ott resigned today as manager of the New York Giants and was succeeded by Leo Durocher, whose job as pilot of the Brooklyn Dodgers was turned over to Burt Shotton.

Shotton was pulled out of semi-retirement a year ago by Brooklyn and led the club to the pennant after Durocher was suspended by Commissioner A. B. Chandler.

Durocher had been manager of the Dodgers, the Giants' arch rival, since the start of the 1939 campaign. Ott has been boss of the Polo ground outfit since 1942. He joined the club as a player 23 years ago, when only 16.

The announcement of Durocher's resignation and Shotton's return to the Dodgers was made by President Branch Rickey at Cincinnati. He flew there from Brooklyn after conferring with Durocher last night.

Ott, one of the best liked members of the baseball fraternity, will take a brief vacation and then return to the Giants' staff in a capacity still not determined.

Horace Stoneham, president of the Giants, said Durocher was made by President Branch Rickey at Cincinnati. He flew there from Brooklyn after conferring with Durocher last night.

Ott, one of the best liked members of the baseball fraternity, will take a brief vacation and then return to the Giants' staff in a capacity still not determined.

The text of the announcement by the Giants:

"As of today, Mel Ott has resigned as manager of the New York Giants."

"Leo Durocher has been appointed to succeed him and will assume command of the Giants in Pittsburgh tonight."

"The negotiations leading to the appointment of Durocher were conducted with the full consent of the Brooklyn club, and with the approval of Ford Frick, president of the National league."

"President Horace Stoneham wishes to express his deep personal regret at Ott's departure from the Polo grounds. However, he is happy to announce that today's action does not sever an association between the Giants and Mel Ott that has already extended over a quarter of a century. Upon his return from a vacation Mel will take over a place in the club's office organization."

Aboard the S. S. America, July 16 (AP)—Night life is taboo for America's Olympic athletes, heading for the London games which open July 29. A strict 10:30 p. m. curfew has been put into effect for the more than 300 Olympians aboard this big white liner. Beginning today, the various sports teams will resume training routines as far as possible.

New York, July 16 (AP)—Reine Hanover, one of the leading contenders for the \$60,000 Hambletonian at Goshen, N. Y., August 11, scored an impressive victory in the second race last night at Roosevelt Raceway. The filly drew eighth post position, and after staying outside for three-eighths of a mile, driver Henry Thomas brought her in and she moved away convincingly to win, with Devotion, second, and Prim Hanover, third. Reine Hanover's sire, Spencer Scott; her dam, Shirley Hanover, and grand dam, Hanover's Bertha, all won the Hambletonian. She is owned by Lawrence Sheppard, Jr., of Hanover, Pa.

Marion, O., July 16 (AP)—Two drivers were injured, one seriously, last night when a cat frightened a horse during a harness race, causing a pileup. Banty Severns of Ohio City was thrown to the track and Marion Slane of Van Wert was tossed against the infield fence. Both were taken to City hospital, where Slane's condition was reported as serious.

Harrisburg, July 16 (AP)—Several of the nation's younger tennis stars are expected to compete here next week in the 10th annual Fort Hunter tennis tournament. Final arrangements for the bout between the Casablanca, cloutier and the Gary, Ind., steelworker, were made here yesterday with the date and site yet to be determined.

## EMMITSBURG 9 TRIPS BARLOW

Emmitsburg defeated Barlow in the South Penn Baseball league in an exhibition game Thursday evening at Emmitsburg 6-1.

Lewis, Emmitsburg's catcher from Camp Deatrick, pounded out a single, two doubles and a triple to pace the visitors. Vince Topper hurled three hitless relief innings for the Marylanders after Barlow threatened in the sixth.

Barlow's lone run came in the third on a triple to right field by Jim Thompson who scored on an over throw.

The twin setbacks cut the A's margin over the third-place New York Yankees to one percentage point as the world champions beat the St. Louis Browns, 4-2, in a night tilt at New York.

## SATCHEL PAIGE PITCHES TRIBE TO 8-5 VICTORY

By RALPH RODEN  
(AP Sports Writer)

It's Bill Veeck's turn to laugh now. Old Satchel Paige has contributed an important win to the Cleveland Indians' pennant drive.

When Veeck, Tribe president, signed the ageless Negro pitcher to his first major league contract on July 7, some observers said it was just another of Veeck's stunts to keep the turnstiles humming in the Forest City.

But Paige, who has played for and against some of the greatest names in baseball, is demonstrating that he still has some stuff in his right arm which critics allege is anywhere from 39 to 50 years old.

### Beat the A's

Paige shuffled out of the bullpen in Philadelphia's Shibe Park last night in the second game of a twilight-night doubleheader against the second-place Athletics and gained credit for an 8-5 Cleveland victory.

The triumph enabled the Indians, who won the first game, 6-1, behind the four-hit pitching of Steve Gromek, to increase their first-place margin over the Athletics to two-and-one-half games.

### Red Sox Take Pair

The up and coming Boston Red Sox took a day-night doubleheader from the Detroit Tigers, 13-3 and 3-1, at Boston. Jack Kramer coasted to his eighth straight victory in the day affair.

At Washington, Rae Scarborough hurled the Senators to a 4-1 seven-inning conquest over the last-place Chicago White Sox.

The Boston Braves pulled six games ahead of the runner-up Pittsburgh Pirates in the National league's pennant race, beating and tying the Chicago Cubs while the Pirates split with the New York Giants.

### Dodgers Win

Johnny Sain posted his 12th victory 2 to 1 in the first game allowing seven safeties. The second game was called at the end of 13 innings because of darkness with the score tied 1-1.

The Pirates clipped the Giants, 4-3, in the first game. Ralph Kiner blasted his 24th round tripper for the Pirates in the eighth inning to tie the Cincinnati's Hank Sauer for the majors' home run leadership. Ray Poat hurled the Giants to a 19-3 triumph in the second game, scatter-

### OK BOND ISSUE

Harrisburg, July 16 (AP)—The department of Internal Affairs approved a \$360,000 bond issue for the Lock Haven city school district, for the purpose of purchasing ground, erecting and equipping new buildings and repairing existing structures.

The State Highway tallied seven runs in the first inning and then went on to win an easy 17-5 decision over the VFW in the nightcap on the high school field. The VFW was forced to play the game with but eight men when it was unable to put a full team on the field.

The Acme, who had been given until Thursday to reorganize after forfeiting two games due to being unable to put full teams on the field, found the tables turned as the Inductive showed up with but three players and the Acme gained credit for a 9-0 forfeit win.

The game between the Texas Lunch and Stanton Legion scheduled as the nightcap on the college

for a 7-6 to 7-6 tie.

For the second time in less than a week the Gettysburg Legionnaires were forced to forfeit an Adams County baseball game Thursday evening.

## Today's Talk

HOWARD VINCENT O'BRIEN

Last September one of the rare human beings of this earth, Howard Vincent O'Brien, closed his book, and wrote his final reflection. It was this: "Lord I am still deeply in Thy debt." Mr. O'Brien was for years a columnist for the Chicago Daily News, but he was a notable reporter all his life — even as a boy. In his home town he was widely and devotedly read. From the first reading of his pieces I was fascinated, and talked to him about a wider audience. But editors told me that his articles were too long, or that they appealed to too high an intelligence, which of course seemed foolish to me. O'Brien appealed to all who took pride in mere thinking. He wrote simply, with remarkable genius in the selection of words. And he had a sly humor that was delightful.

Wendell Phillips once said that "the biggest brains don't go to Congress." No; they stay at home and write the things that O'Brien wrote. All newspapers would be more widely read and trusted if they used more columns like Howard Vincent O'Brien wrote. When the war was on and his son came back to him and said that he had enlisted, he wrote a literary masterpiece about it called "So Long Son." The son never came back. This brief, poignant piece of writing and William Allen White's "Mary," to my notion, are the two finest literary treasures of their kind in all literature.

No one ever met Howard Vincent O'Brien without immediately loving the man. You tied to him at once. His sincerity, his love for all human beings and living creatures, as well as his love for books and ideas, drew him to one. And how he hated shams and phonies!

After a long fight against losing sight and a racked body, and shortly before he died, he wrote this: "In my youth the problem was to make God conform to my pattern of Him. Now the problem is for me to conform to the pattern of the universe — the pattern of order, the design of immutable law which is 'God'."

I have just read a memorial book about this remarkable man, containing a rich collection of his essays, called "All Things Considered." It is an inspiring book that will send the glow of this great man's life far into the years. The world is richer for all that he so unstintingly gave to his fellow creatures.

Tomorrow Mr. Adams will talk on the subject: "The Right to Disagree."

## NEW DISORDERS ERUPT IN ITALY AS STRIKE ENDS

Rome, July 16 (AP)—Fresh disorders erupted in Italy today as a Communist-led general strike sputtered to a halt.

The Communists called off the strike after Premier Alcide De Gasperi's government said it would use force to break the "insurrection."

The official end of the walkout at noon (5 a. m. EST) came amid scenes of wild tumult in the Chamber of Deputies where Christian Democrats and Communists engaged in fist fights. There was repeated in miniature the strike-bred disorders which had swept the country for 36 hours.

**13 Are Dead, 100 Hurt**

At least 13 persons were killed and more than 100 injured in the Communist-sparked rioting. Even before the hour set by the Communist-led General Confederation of Labor (CGIL) for the end of the walkout, the strike virtually had collapsed.

A back-to-work movement began late yesterday. The CGIL knuckled under when De Gasperi's government stood firm against this most serious challenge yet to its authority.

In the last hours of the strike 16 persons were wounded, three seriously, in a gun battle in Bologna. Police used their guns on strikers after they were fired on from the windows of the Chamber of Labor office there.

**Put Down Rioting**

Disorders also occurred in Milan and Palermo as die-hards strove to enforce the walkout right up to the noon hour. Authorities regained control of Genoa, one of the major trouble spots.

Police and troops moved vigorously in putting down rioting, arresting strikers who resisted them. This was in line with the get-tough policy outlined by Interior Minister Marie Scelba and De Gasperi.

The strike followed an attempt two days ago on the life of Communist leader Palmiro Togliatti.

A physicians' bulletin said Togliatti had passed a "rather agitated night" and that his general condition was more depressed. "Bronchopneumonic congestion" developed at the base of the lungs, the bulletin noted.

## U.N. MAY HAVE TO DEAL WITH BERLIN CRISIS

By DEWITT MACKENZIE  
(AP Foreign Affairs Analyst)

It looks as though world opinion may have to be called upon to settle the struggle between Red Russia and the Western Democracies over Berlin—provided the veto-ridden United Nations is capable of furnishing a sounding board to register the global viewpoint.

Moscow's blunt rejection of the American-British-French demand that she lift her food-blockade of Berlin has created one of the most amazing situations ever recorded in the history of civilized man. You would think it couldn't happen in this day and age—but it has. Just take a look at it:

In an effort to force a political concession from the democracies, the totalitarian dictatorship of the mighty Russian empire has deliberately set about to reduce the some 2,400,000 inhabitants of Western Berlin to hunger and cold and other privations. The idea is so fantastically ruthless as to be almost unbelievable. It smacks of the dark ages.

### Parachute Jumping Now

It's Berlin's location, of course, which makes such a scheme possible. The huge metropolis lies in the heart of the Soviet zone of occupation in Eastern Germany. The railways supplying the American, British and French zones of Western Berlin pass through Soviet territory and this fact inspired the Reds to cut the communications, that is to say, the lifelines.

To counter this terrible menace America and Britain have been doing a unique job of flying supplies—food, medicines, fuel—into the beleaguered capital. Naturally they haven't been able to meet requirements, but have been piling up enough supplies to provide a barrier against death.

The Bolsheviks, noting this success with concern, yesterday threatened through the official Soviet newspaper Rundschau in Berlin to interfere with the American-British air operations. The Russians previously had warned that they would be conducting parachute jumping practice in one of the air corridors. Commenting on this warning, General Lucius Clay, U. S. commander, remarked:

"They have every right to practice in the corridors, but it will be pretty bad for them if our planes run into them."

American quarters in Germany yesterday said they expected the Berlin crisis to worsen, in view of the Russian rejection of the demand for a lifting of the blockade. Well, now, just what would a protracted siege mean?

In the first place we must remember that Berlin is a ruined city. Huge the terrific bombing during the war, the terrific bombing during the war. It's an astonishing thing to find millions of people trying to make

The provision of food for such a host of cave-dwellers obviously presents a staggering problem. But that isn't all. There is a scarcity of other essentials, including coal for fuel. And what does it avail a man if his belly is full while he freezes? Power for lighting and other purposes also depends on fuel.

This then is the situation of which the Bolsheviks are trying to take advantage. They figure that the Western Allies are too humanitarian to permit millions to starve or freeze—so the blockade is clamped on.

The immediate object of the Communists probably is to force the Western Allies out of Berlin or compel them to abandon their project of forming a western German government in their three zones of occupation. The ultimate Red objective undoubtedly is to gain control of all Germany and Sovietize it.

## ANGRY DIXIE DEMOCRATS PLAN TICKET

By REX THOMAS

BIRMINGHAM, Ala., July 16 (AP)—Angry southern Democrats went today with plans to put up their own ticket in the November elections, but one of their leaders said frankly they have no chance of winning.

Others, however, were not so pessimistic. They counted on a solid southern bloc of 127 electoral votes behind a Dixie candidate for President.

A conference of "states" rights' Democrats meets here tomorrow to nominate candidates for President and Vice President in opposition to the Truman-Barkley ticket.

Mr. and Mrs. Archie Chromister and family, Hanover, spent Sunday with Mr. and Mrs. William Musselman.

Sunday guests of Mrs. Carrie Young were Mr. and Mrs. William Matson and Mr. and Mrs. Guy Becker, of York.

## Cop With Shirt Meets Emergency

Baltimore, July 16 (AP)—Patrolman Anthony Culotta answered an emergency call with shirt in hand last night.

The emergency: An 18-year-old blonde was taking a stroll along a busy West Baltimore street in a pair of men's trousers—and nothing else.

After making quick use of the shirt, he took the girl to the station house, where she was booked on a disorderly conduct charge.

GROMYKO GOES HOME

Lake Success, July 16 (AP)—Deputy Foreign Minister Andrei A. Gromyko, Soviet delegate to the United Nations since it was established, sails for home today on the liner Gripsholm. He has been replaced here by Jakob Malik, another deputy foreign minister.

Steinberger said he and several other police officers were in an adjoining room yesterday when Young made the offer to Sheldon Yost, 29.

Both Young and Yost are residents of Stillwater, Pa.

The offer, Steinberger said, involved Young's mother, Mrs. Mary R. Young, 62, of Bendertown, Pa.

Young was charged specifically with solicitation to commit murder, the state policeman said.

Young first approached Yost last Wednesday, Steinberger said, and Yost told him to return later. Yost informed police, Steinberger said, and they were posted in an adjoining room when Young met Yost the second time.

Steinberger said Young gave no reason for his action and made no

## MAN PLOTTED TO MURDER MOTHER

BLOOMSBURG, Pa., July 16 (AP)—Jack Chester Young, 31, was being held today on a charge that he tried to hire another man to kill his mother for \$5,000, State Policeman Sidney Steinberger said.

Steinberger said he and several other police officers were in an adjoining room yesterday when Young made the offer to Sheldon Yost, 29.

Both Young and Yost are residents of Stillwater, Pa.

## Mothers With Babes Protest Milk Prices

PHILADELPHIA, July 16 (AP)—A milk distributing company spokesman says consumers will have to pay farmers more to keep them from shipping their milk to other areas willing to pay higher prices.

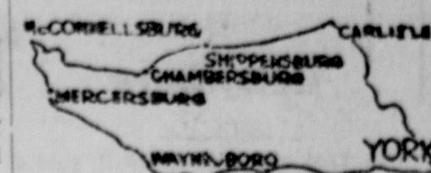

A. J. Nixon, assistant vice president of Supplee-Wills-Jones, one of the largest dairies here, testified at a recent State Milk Control com-

mission hearing yesterday that in addition to a seasonal price increase effective next October 1, farmers should be given another increase, effective August 1 to meet competition in other areas.

The increases, added to a half cent rise sought by milk distributors to cover higher costs, would, if granted, bring the retail price of milk here to 23 cents in October and 22 in August.

Meanwhile, approximately 50 men and women, some carrying babies, gathered outside the hearing room to protest any increase in milk prices.

Before Columbus, American Indians smoked cigarettes rolled in corn shucks, crude cigars and pipes.

**Still Hope for Library Bill**

With the President issuing a call for a special session of the 80th Congress to start July 26, there is a possibility that the Library Demonstration bill, HR 2465, may be passed then. John H. Knickerbocker, of the local committee sponsoring the bill, said today.

The bill passed the Senate unanimously and had passed the House sub-committee six to one before the Congress adjourned. It was thought then that the bill was doomed and would have to be brought up again at the 81st Congress. However, the special session will provide an opportunity for the full committee on education and the house to consider the matter during the current Congress. If they pass it and it is signed by the President, the Library Demonstration bill can become law this year.

A number of local organizations and individuals had previously written Congress urging its passage. They were reminded today that Congressman Chester Gross had asked in May concerning local interest in the bill and were urged to write Congressman Gross to inform him of their opinion on the bill.

**Republicans Prepare To Block Political Benefits To Democrats In Congress****ASSAIL TRUMAN  
FOR HIS CALL ON  
EXTRA SESSION**

**Washington, July 16 (P)**—Republicans whetted their legislative knives today to chop down any political crops which may sprout from President Truman's "turnip day" recall of the 80th Congress.

Vigorously they assailed Mr. Truman's summons to return July 26 as "cheap politics" but they also dropped broad hints that if there is any vote harvest to be gathered in the special session it will not be a one-party reaping.

One member of the House Republican steering committee, who refused to allow use of his name, suggested that GOP lawmakers may open some investigations of the Democratic administration.

**Chorus of Opposition**

Just what might be investigated he did not say. But he told reporters one or two good investigations could provide a lot of campaign ammunition for the Republican party.

Mr. Truman issued his summons yesterday for the return of what he has called about the "worst Congress" in history. Acting just 12 hours after winning the Democratic nomination in a north-south splintered convention, the President said "an extraordinary occasion requires" the special session.

From all sections of the country GOP Senate and House members sounded a mounting chorus of opposition to the special session. To some, resuming the lawmaking chores which they considered finished June 20 will mean simply a hait to their vacations. But to more it will mean a halt in campaigns for November re-election.

Gov. Thomas E. Dewey was silent on the special session call but it got a boost from Henry A. Wallace, the third party Presidential candidate. Wallace said in a statement issued in New York.

The new party welcomes the call for a special session of Congress. When Congress meets it will give the country a preview of what bipartisan campaign promises mean. We shall see each party trying to maneuver the other so as to snare votes but at the same time passing no bills that might really aid the people."

No one was ready to predict how

long the special session might last. It could go on for several months.

The President said the program he wants could be put through in 15 days if the legislators cooperated.

**Summary of Facts**

Here, in brief, is the program he outlined in his acceptance speech, what the platforms say on each, and what Congress did in the last session:

1. Halt rising prices. Democratic plan supports President's anti-inflation program, including standby power to impose price and wage controls. Republican plank promises to attack "basic causes" by cutting government spending, reducing public debt, and other measures. The Republican Congress passed a measure featuring voluntary methods to keep prices down.

2. Housing. Democrats pledge "comprehensive" legislation, including slum-clearance and low-rent projects built with federal funds through local agencies. Republicans pledge federal aid to states for the same purpose, but only where need cannot be met by private capital and state agencies. Congress passed a bill excluding these features.

3. Aid to education. Democrats advocate federal aid administered by states with an appropriation of \$300,000,000 to start it. Republicans favor equality of educational opportunity for all and promotion of educational facilities. Aid bill passed Senate, but died in House.

**Civil Rights Issue**

4. National health program. Democratic plank favors such a program for expanded medical research, medical education, and hospitals and clinics. Republicans urge strengthening of federal-state programs to provide more adequate hospital facilities. Never reached floor at last session.

5. Civil rights. Democratic platform calls on Congress to guarantee racial minorities full and equal political participation, equal opportunity of employment, security and person, equal treatment in service and defense of nation. Republicans favor anti-lynching and anti-poll tax measures, such legislation as may be necessary to maintain right of equal work opportunity, and oppose racial segregation in armed services. No action at last session.

6. Increased minimum wage. Democrats favor increase from 40 to 75 cents an hour. No mention in Republican platform. No action in Congress.

**Social Security**

7. Social Security. Democrats fa-

The company serves water to the city of New Castle, Lawrence county. Proceeds from the stock sales will be used to retire bonded indebtedness and finance new construction.

erage to workers not now included. Republicans favor extending coverage and increasing benefits to a "more realistic level." Congress passed over veto bill increasing benefits to blind persons and dependent children, but barred old age pensions to 750,000 semi-independent workers the President wanted covered. Truman wants about 20,000,000 added to benefit rolls.

7. Displaced persons. No mention in platforms, but President in acceptance speech asked for "adequate and decent" law. Congress passed a bill allowing 205,000 European refugees to enter this country in the next two years. Mr. Truman called it "anti-semitic, anti-Catholic" because of certain immigration qualifications.

**AUTO WORKERS TO STRIKE**

**Philadelphia, July 16 (P)**—Local 131, United Auto Workers (CIO) authorized a strike of its 1,210 members at the Autocar company plant in suburban Ardmore to support union demands for a cost of living wage increase. The union's members voted yesterday 897 to 166 in favor of the strike. The other members did not vote.

**Dem. Convention****TRUMAN OPENS CAMPAIGN WITH TOUGH SPEECH****Blame Husband In Shooting Of Wife**

Kane, Pa., July 16 (AP)—A coroner's jury reported last night a 19-year-old mother of two who was slain on lonely road near Kane "met death from a bullet discharged from a .22 caliber rifle owned by her husband and in his car."

The victim was Mrs. Thelma Davis Smiley, who was killed Wednesday. Her 26-year-old husband, Alvin Smiley, was being questioned today by County Detective Merle Dickinson who said he expected to prefer charges against him. The official added he had "not yet decided what charge."

Dickinson said Smiley claims a government "can and should encourage the building of better homes at less cost" and "recommends Federal aid to the states for local slum clearance and low-rental housing programs" when private enterprise can't do the job.

He did it Thursday in his speech to the Democratic convention, accepting the presidential nomination.

Right at the end of his speech he announced that he is calling the Republican-controlled congress back into special session July 26. That means this:

1. He's going to ask Congress to pass certain laws, such as those aimed at controlling the cost of living.

2. But most of what he said he'll ask for is something which the Republicans — in their own 1948 platform worked out here three weeks ago — also say needs to be done or studied.

**Puts GOP On Spot**

3. That will put the Republicans on the spot of having to deliver on their platform promises which they made in an attempt to win the elections in November.

But before looking any further into Mr. Truman's attempt to put the Republicans over a barrel, this is something to remember as the political campaigns get under way:

In his speech very clearly outlined the Democratic party's campaign tactics in trying to win the presidency and control of Congress:

1. Claim credit for the Democratic party for all the good things Congress and the government have done since Franklin D. Roosevelt became president in 1933.

2. Attack the present Republican-controlled Congress as a do-nothing-or-do-badly-friend of the rich, and blame it for the things left undone.

**Sample Campaign Speech**

Here's an example of what you'll be hearing about No. 1:

Mr. Truman pointed to the tremendous rise in the earnings of workers and farmers since 1932 and said both groups would be "ungrateful" if they didn't vote for his Democratic party.

Here are examples of No. 2:

A. The high cost of living and the end of OPA and price control. Mr. Truman blamed them on the present Republican Congress. In the special session he's going to ask Congress to do something about stopping inflation. (In their 1948 platform the Republicans "pledge an attack upon the basic causes of inflation.")

B. Mr. Truman blamed this Congress for failing to pass a strong Federal Housing bill to wipe out slums and provide low-cost rentals. He said he will ask the special session to act to lower housing prices.

**Blame On Other Scores**

This Congress, just before it quit in June, did pass a housing bill. But Mr. Truman said this is worthless.

Here are examples of No. 2:

A. The high cost of living and the end of OPA and price control. Mr. Truman blamed them on the present Republican Congress. In the special session he's going to ask Congress to do something about stopping inflation. (In their 1948 platform the Republicans "pledge an attack upon the basic causes of inflation.")

B. Mr. Truman blamed this Congress for failing to pass a strong Federal Housing bill to wipe out slums and provide low-cost rentals. He said he will ask the special session to act to lower housing prices.

**Blame On Other Scores**

This Congress, just before it quit in June, did pass a housing bill. But Mr. Truman said this is worthless.

(The Republican platform says the

**Blame Husband In Shooting Of Wife**

Kane, Pa., July 16 (AP)—A coroner's jury reported last night a 19-year-old mother of two who was slain on lonely road near Kane "met death from a bullet discharged from a .22 caliber rifle owned by her husband and in his car."

The victim was Mrs. Thelma Davis Smiley, who was killed Wednesday. Her 26-year-old husband, Alvin Smiley, was being questioned today by County Detective Merle Dickinson who said he expected to prefer charges against him. The official added he had "not yet decided what charge."

Dickinson said Smiley claims a government "can and should encourage the building of better homes at less cost" and "recommends Federal aid to the states for local slum clearance and low-rental housing programs" when private enterprise can't do the job.

He did it Thursday in his speech to the Democratic convention, accepting the presidential nomination.

Right at the end of his speech he announced that he is calling the Republican-controlled congress back into special session July 26. That means this:

1. He's going to ask Congress to pass certain laws, such as those aimed at controlling the cost of living.

2. But most of what he said he'll ask for is something which the Republicans — in their own 1948 platform worked out here three

# ASSSESS CHANCE OR VICTORY OF RES. TRUMAN

the Democrats have lost his political genius and vote-getting magic. His tight control on the Democratic party held it together. President Truman hasn't shown yet that he has the same grip.

That's illustrated by the anger and walkout of southern delegates on the convention floor over the civil rights issue. Mr. Truman made it an issue when he laid down his civil right program last February.

## Splits Don't Help

Before the convention started here Monday, some of the biggest Democratic politicians didn't want Mr. Truman re-nominated.

That kind of feeling by Democrats about the leader of their party — since the voting public has read of how they felt — isn't a vote-puller.

The splits and divided thinking within the party — such as over civil rights — doesn't help roll up votes either.

In winning election to the presidency four times, Mr. Roosevelt's victories were so large over the country generally that he could have won without the votes of the southern states.

## No Sweep Predicted

But this year no one is predicting

any such kind of sweep for the Democratic ticket of Mr. Truman and Senator Alben W. Barkley of Kentucky.

In a close contest with the Republicans, the votes of those southern states might mean the difference between victory and defeat for Mr. Truman.

So he seems likely to suffer if some of the southern states refuse to support him and throw their electors to some one else, although not necessarily to a Republican.

So far all that's been said here has been on the gloomy side of the Democrats' chances. But a big change might happen between now and election day in November.

## Had Them Shouting

For one thing, Mr. Truman accepted the nomination Wednesday with a speech that brought the delegates shouting to their feet. Until then, except for their outbursts of anger over civil rights, the delegates had been a dreary looking crew.

If he can continue to spark the politicians of his party, he may be able to pump real hope and voting energy into them.

He predicted victory for the Democrats and right on the spot opened his campaign with a move that is intended to put the Republicans over a barrel.

That's when he announced he is calling Congress back into special session — it's a Republican-controlled Congress — to pass laws he thinks are needed, like stopping inflation and providing housing.

Rieker was elected Wednesday at the final session of the 30th annual three-day reunion of the association. The organization is composed of members of the army's famed 42nd Division.
